Age Range: 8 - 14 years

Grade Level: 3 - 8

Customer Reviews

Great Quality. Paper is white and sturdy - doesn't bleed through with markers, colored pencils or crayons - unlike most coloring books purchased in retail stores. Pictures are authentic Tanks and planes and fun to color. Our grandson loves Planes and Tanks, so these coloring books provide hours of enjoyment for him.

My mom and I got this coloring book for my uncle who just had a liver transplant. He is home with not much to do, and is a huge history guy. He likes this coloring book a lot. We got him a few war-related coloring books, and this is his favorite. He plans to share it with his grandson.

I love this because my husband is putting together a tank and has another one on waiting. This coloring book has both of those tanks. I intent to color them to match the tanks and frame them for

him.

I received this product in exchange for my honest and unbiased review. The shipping was fast and packaged securely. Easy to install with clear directions the directions are easy to read. nice detailed pages to color with description of the page, nice coloring book for kids, adults or history enthusiasts. This product is great because it's made of durable materials, it's very usable, fashionable and hip, and is a great product that does as described. I referred this product to all my friends.

This would be a fun book for an older child, ages 5 to 10, or maybe a mature 4-year-old. For my toddler (who is 2 years old), the illustrations are so complex that they're over his head. Also, a lot of the illustrations are repetitive. They all just look like tanks to me (this book should just be titled "Tanks Coloring Book" not "Tanks and Armored Vehicles"). One more thing to add, because there are so many lines and because the pictures aren't terribly different from one another, I'd recommend coloring this in with crayons or colored pencils due to the increased range of colors and accuracy over say an 8-pack of colored markers.

My son really likes it. He is very much into military stuff. The pictures are nice. I like that the pages are a heavier weight paper so you can use markers on it and it won't bleed through.

Very awesome coloring book, nice white pages, good quality pictures, and nice little info with each picture. We always look for good coloring pages or books, it's definitely worth the \$.

My husband loves this book. He wanted to color something more up his alley than the usual Zen Paisley Floral kitten and puppy books you find everywhere these days.
