This is a must read book. In Sacred America Sacred World, Stephen reminds us, in this time of

on-going political friction, that partisan politics is ready for an upgrade. It's time to see that in the political arena (as in all of life) that all points of view have something to offer. Rather than looking for proof that my point of view is the only right one...we are each called upon to see that the best solutions to problems facing the country - and the world - require the marriage of myriad viewpoints taking the best each has to offer - to fulfill the promise of Life, Liberty and the Pursuit of Happiness for All. Thank you, Stephen for this powerful vision of what is possible when Spiritual Principles are applied to the political arena. This is a book I will read over and over and over again Sacred America, Sacred World: Fulfilling Our Mission in Service to All]] and share unabashedly. And when I see/hear a political figure who has forgotten that we are One, I will use this as an opportunity to remember that they simply haven't downloaded the most recent software for Sacred America Sacred World!

_____ There are many proactive individuals which are seeking a path to help others in society in myriad ways. This book helps greatly in achieving those goals. Sacred America, Sacred World: Fulfilling Our Mission In Service To All by Sephen Dinan does a rather impressive job in detailing not only many of the changes that we will face as individuals in the future, but also how to prepare ourselves and set ourselves to thrive while facing these tumultuous circumstances. Throughout the book, the reader is not only able to feel the drive that pushes the author in showcasing solutions that will help us, but the author also accomplishes this in an incredibly inspiring way that many individuals will surely gravitate too. How the book is laid out will also appeal to readers as it's done in a no-nonsense way. The wide-ranging issues Dinan covers such as community, from the environment, politics, finance, sexism and more are given a thorough look and addressed reasonably. The map that is laid out in this book for individuals to take is formidable, comprehensive and practical in a way that will help proactive individuals be the impetus for resounding change. Sacred America, Sacred World, is a book that should not only be read, but most importantly deeply ruminated upon, as there are many ways in which the ideas provided can help bring change. How the world will look like decades from now will be proportional to the action we all choose to take now. Let's all make incisive reverberating choices to bring about positive change. Kindest Regards, Zy Marquiez

Stephen Dinan's new book, Sacred America, Sacred World expresses a

deep and inspired view of what it would truly mean to "make America great again." He writes about our deeply spiritual and highly principled foundation of this country, and how what began with a call for American Revolution has become the call for "American Evolution." Now is the time for us to evolve together - as Americans and as global and cosmic citizens into a higher order of unity and love.

This book is so timely as we face one of the most crucial elections of our time. The author not only describes important history of our country up until the present, but then goes on to lucidly show how we can evolve/create future in a sane, patient and compassionate manner. Having lived much of history & traveled the world and wish his message of evolution of younger generations, with intent and consciousness, will be the change agents that will advocate for US/World peace and prosperity NOT power and greed, as we are now experiencing. All I know, is this too shall pass and hope my wish will come true!!

Sacred America, Sacred World is a call to become the people who can realize the intrinsic values embodied in the founding of America. It calls for a true game-changing stance that fosters an environment where a diversity of ideas and views are valued as a path to enable the inherent genius in our common pursuit for true freedom, happiness and prosperity for all. Within the pages of this book, the discourse shifts radically from the debilitating rhetoric and rancor of dismissal and disrespect to respectful collaboration and understanding that allows the humanity of one another to remain intact in a way that elevates. Stephen writes courageously and illuminates the path forward by revealing his open, human heart and extending the opportunity for each of us to do the same. May we follow in his example and together experience the blossoming of humanity.

As a radio host and event producer I've had the joy of interviewing today's leading visionaries and social change artists. Many have written books that have inspired my soul. Stephen Dinan's powerful manifesto ignited a fire in my heart! Sacred America, Sacred World is a call to all healers, dreamers, artists, evolutionaries, bravehearts and rebel spirits to wake up, rise up and take a stand for a better America. He offers a blueprint on how we, as sacred citizens, can fulfill our mission in service to all. This was a book that I have now read several times and am encouraging my listeners and friends to read as well. We all recognize that there is a great need for an evolutionary movement in politics. Sacred America, Sacred World will serve as a catalyst in making that happen!

This book by Stephen Dinan is a breath of fresh air and realistic hope for the future of the United States and the world. It provides historical context and realistic solutions for many of the problems facing our dissonant America. Stephen's vision is both uplifting and practical. It provides a template for addressing our myriad problems viewed from a conscious, expansive perspective. Thank you, Stephen, for this important contribution~
