Customer Reviews

I use this book for Life Skills Science class with 9th graders who are in the Occupational Course of Study (special ed). It is a wonderful text, which corresponds nicely with the OCS standards. It is also helpful for Life Skills Science II.

20 chapters, read 2 a nite and passed his test first time! 5 units of credit! book was in great condition, as advertised. took a little longer (not much) to get than I expected.

This is a wonderful resource to use with students especially those who have a hard time with their reading and comprehension.
