Angels And Devils

Synopsis

The most thorough book about the Angels yet written! Here, bestselling author Joan Carroll Cruz expounds upon the traditional definitions and delineations of the Angels and Devils, asking and answering virtually every conceivable question about them. Among the many recent books about Angels, this has to be one of the very best, if not the very best yet. Definitely another Mrs. Cruz bestseller! Impr. 314 pgs 44 Illus, PB

Customer Reviews

At the very least, quite a satisfactory introduction to the subject of Angels and demons. Moreover, Joan Carroll Cruz approaches this fascinating topic as one of the faithful. This makes for a refreshing change from the breathless and heretical blather put out by misguided New Agers. The book is well written and researched. But Mrs. Cruz uses the same stories and quotes from a handful of Saints, Blesseds, priests, etc. to make different points (be prepared to read the same passages, verbatim, numerous times throughout the book). I don't think this retreading, as it were, serves her or the reader particularly well. Still, there's something to be said for Mrs. Cruz's vignette, rather than narrative, approach -- despite the redundancies, it makes for a read that is not only fast, easy, and enjoyable, but also informative. Recommended.

This book is one of the greatest Masterpieces ever written for anyone who knows (or would like to learn) that this world for now is not only difficult to navigate but almost impossible to endure without

the assistance of Angelic help against powerful demonic entities. Now, I have don't have the answer to why bad things happen to good people or why God permits suffering, tragedy, and evil itself. There are tons of books on that topic right here at .com. But if you are going through a dreadful bad patch and feel like it is truly an attack that you cannot see, hear, touch except if it comes by way of the most difficult people in your life - please buy this book. Your entire outlook will change and eventually (in my opinion) you will be better able to deal with the toughest stuff out there. I just cannot help asking WHEN will we wake up and realize that there is real help that doesn't come from a pill, a movie, a cult, a new "technique" for tragedy, or even the advice from your closest friend. A friend...like the Angels in this book.

During the first half of this wonderful book, you will swear that you can hear the heavenly choirs. It is that beautiful. And the second half, where Ms. Cruz deals with their demonic counterparts, is as important as the first half is lovely. This is an important and beautifully written book. Pick up a copy and emerge yourself in its simple and compelling truth. Learn of the beauty of the spirit world and the terribly important role of Holy Church. God bless.

Joan Cruz has written an excellent and very useful book that one will keep referring to. She presents many examples from the lives of the saints on both the good and bad side of the angelic realm. All catholic clergy should read it as well as lay people.

This book is easy to read and provides beautiful information about the Angels. Very informative and also includes information about devils while keeping them in their place (the last section of the book). I enjoyed this book and am glad that I purchased it. Enjoy!

This book by Joan Carroll Cruz is presented with short accounts of encounters of angels and devils by individual throughout the ages. The stories told are short and factual, but are not an in depth study.

I must admit that I did not know what to expect with the book. I did know that Joan Carroll Cruz was a good writer so I bought the book. I absolutely loved it. This book defines the topic of Angels and their fallen angel brethren. This is a practical, scholarly approach to the topic with wonderful suggested sources. I came away with so many possible things to read that I was stunned. I think that everyone of faith will enjoy this book. Have fun.

I have searched for books on the angels, but they are fairly pathetic. This is the BEST I have found. I highly recommend it. I am only half way through (haven't got to the devils yet) and can barely put it down.
