Where Did My Wife Go? Understanding & Surviving Menopause, Mid-Life Crises & The Empty Nest Syndrome
Synopsis
This book will help men and their wives understand more clearly what is happening to a woman when she enters this stage of her life. It is an eye-opening account of biological and psychological roadblocks to healthy relationships and what can be done about them. The book offers practical and easy to follow steps that can help men deal with and understand these very complex issues.

Customer Reviews
This book is both practical and comforting for husbands AND wives. Here’s what each of you can do to help save your marriage (even if you’re the only one who wants to). Full of wisdom, information and suggested courses of action to counteract the potentially devastating effects of menopause, midlife crisis and empty nest syndrome. Written by a non-medical person who speaks from his own heart and experience, this is a gem of a book. Read it NOW, even if no one is menopausal yet!

Written by a man for men. His was an extreme case, and he seemed to blame hormones for all his problems.

This book is easy to read, and met my expectations. (This is an annoying review to have to write -- sorry.)
