## Customer Reviews

This is a unique map which has all the property locations and the original terrain features like fences, orchards, fields, streets, etc. I highly recommend this map for anyone who is interested in the original perspective on the layout of the battlefield location without troop placements. The front of the map covers the morning battlefield and the back of the map covers the afternoon battlefield. The map comes in a glazed hard covered sleeve for protection. I also bought the Gettysburg map set which I am equally pleased with. I will more than likely buy the other maps that they produce.

This map contains all the information that I was looking for. Reno's positions, Weir point, Custer's movements, the route taken by volunteers to get water, Indian positions are all shown. I like that you

get the feel of the topography and distances between all that was happening. I like it.
