A complete and thorough 453 page history of the events along the coast and inland water ways of North Carolina and Virginia during the American Civil War. Browning provides an in-depth discussion of the logistics, tactics and strategy of the North Atlantic Blockading Squadron, which played a very important and often overlooked role during the Civil War. Its successes benefitted the efforts of the Union's Army of the Potomac and adversely affected the operations of Robert E. Lee's Army of Northern Virginia. There is also a succinct explanation of the campaign to capture Wilmington, North Carolina and the broader effects that campaign had on Lee's army. Eight maps, fourteen illustrations and over a hundred pages of notes and bibliography augment the text.

Just completed the first of the two books by Browning on the blockade and found the book very rewarding in every way. No other book comes close to the detail of coverage in this book. Have already ordered the South Atlantic Blockading Squadron.

Probably THE most complete history of the North Atlantic Blockading Squadron
