Customer Reviews

Very helpful for studying MCQs for your exams. The questions do get tricky, purposefully so, and the answers provide sufficient detail as to why the correct answer was the better answer. By quizzing myself using this book, and using AdaptiBar.com*, you should ace your multiple choice exams.*I am not affiliated in any way with AdaptiBar.com. I subscribed to their service, at full cost, and am simply blown away by the "smart" approach they take for quizzing.

Along with the book Strategies and Tactics for the MBE, this is the book that I most often use with

my students when I am preparing them for the MBE. I couldn't recommend it enough. The questions are challenging and clever, two components you'll find on actual MBE questions but far less often in prep material. Do yourself a favor and get this book.--Sean Silverman (MBE tutor)
