Customer Reviews

I am a 26 year old woman who has been married for 8 years. My sister recommended this book to me and I have to say that I was absolutely engrossed in what it had to say. You can say that this book teaches ignorance or racism or sexist remarks, but it does nothing of the sort. You have to read this with an open mind. This book explains men inside and out. Every test that this author mentions, worked like a charm each and every time. I have saved my husband and I many many arguments by being able to understand how he feels. Men are just as complex as women and

understanding men is simply a gift. This book tells women to love honor and cherish their husbands. Is it not true that women want the same thing. Haven't you ever heard the phrase "what goes around comes around." That's what this book is about. Treat your man with respect and honor and he will return the feeling with an honest heart. That's all there is to it. It tells me why my husband says and does the things that he does and helps me to help him. Women want to be treated with respect and honor and dignity and this book shows you how to achieve this on a kind and honorable level. It is not a book about being a doormat and it does not say that you have to give sex on demand as one of the reviewers mentioned. It simply says that when we are kind and loving to others, they will be kind and loving to us. The only thing I found difficult was the part about not being employed. I agree that there is no more noble a career than being a homemaker, but in today's expensive world, there are often times, no way around it and if you're going to have to work, it might as well be something that you enjoy and if you have to go to school for that then so be it.
