I really enjoyed reading this book for a course I took. While its historical details could have made the reading dense, connections to current events make it much more readable. It's organized by different ethnic or racial groups. That structure makes it easy to compare and contrast different groups and timelines. Overall, I found it to be a very engaging read. While it's not something I would have necessarily picked up on my own volition, I'm glad that I got to read it for a class.

Hot steaming garbage! I bought the kindle edition which is apparently not compatible with my kindle paperwhite? Ridiculous. The actual text is thick, boring, condescending, and holier-than-thou.

Great product! Great service! Thank you!!

Exactly what I needed.

It was excellent,

super boring and not engaging at all. come to find out my teacher knows the authors and receives a cut from the sales.
